

MOLDINGS - Solid and Engineered Hardwood Flooring

Enhance the appearance of your Lauzon hardwood flooring and living spaces with our coordinating moldings. These premium prefinished wood profiles come in a wide range of species and colors, allowing for innovative creativity while matching your decor and blending with almost any other hardwood, tile, stone, vinyl or laminate flooring. **LENGTH : 84" (2.133 m)**

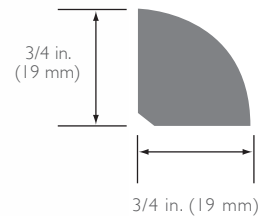

T-MOLDING

T-molding ensures a smooth transition between two separate areas of hardwood flooring.

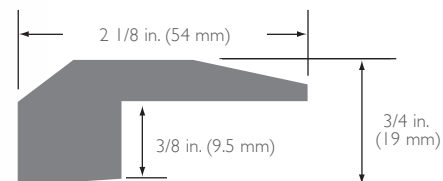

QUARTER ROUND MOLDING

Quarter round molding is the classic molding, it is used to cover the remaining space between a floor perimeter and wall at a right angle.

THRESHOLD MOLDING

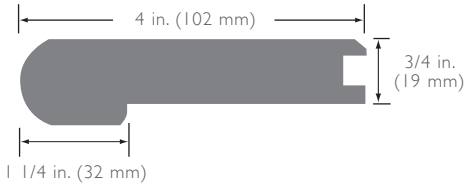

Threshold molding neatly complements the space where hardwood flooring ends.

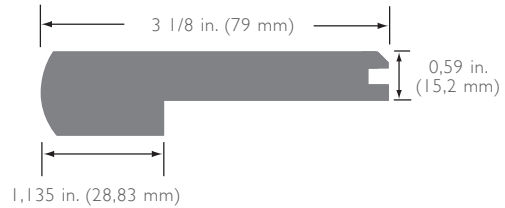

STAIR NOSE MOLDING (ROUND)

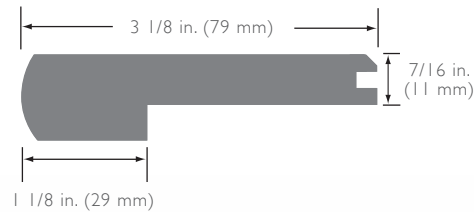

Stair nose molding is used to finish the flooring edge at a staircase.

Available in micro-V and square edge profiles.

REDUCER MOLDING

Reducer molding provides a natural transition between a hardwood floor and another type of flooring of a slightly lower height. It also creates a smooth finish against any vertical surface or where quarter round cannot be used.
